

A3-P

Pneumatic Assembly Machine

The A3-P is a benchtop pneumatic frame assembly machine, built to withstand the rigors of time.

Designed for small to medium size frame assembly.

It can join all types of moulding with precision using our **A+ special steel wedges**, which are manufactured in several different sizes.

The movement of the fence using linear ball bearings and the automatic fence clamp (AFC) placed below the working surface.

The machine is equipped with a horizontal clamp to hold the corners tightly together while assembling the frames.

This machine is equipped with a very strong nail driver providing trouble free operation for many years.

New style AFC
